

**DELIVERING SUSTAINABLE WORKPLACE
HEALTH & SAFETY SOLUTIONS**

COFFEY ENVIRONMENTS

SPECIALISTS IN WORKPLACE HEALTH & SAFETY

Coffey Environments is a leading workplace health and safety service business and a specialist in environmental, social and safety performance.

The workplace health and safety team at Coffey Environments benefits from a strong network of offices nationally and internationally. Our services are supported by dedicated specialists in the field of workplace health and safety, and our comprehensive and sustainable solutions are delivered to a wide variety of business sectors.

EXCEEDING CLIENTS' EXPECTATIONS

Coffey Environments provides a complete range of workplace health and safety services from high-level strategic advice to monitoring and analysis of contaminants in the workplace.

Evidence of exceeding client expectations is reflected by our high frequency of repeat business. Through product research, we have delivered a broad range of services to our clients. We customize services to adapt to our clients' needs, thus creating extraordinary outcomes.

Our reputation is built on the commitment to clients' and the improvement of health and safety that we aspire to deliver around the world.

OUR COMMITMENT TO EXCELLENCE

As part of our ongoing commitment to excellence, Coffey Environments encourages our staff to be specialists in their field and to stay abreast of the latest developments. Our people are constantly asked to participate in forums and advisory boards. We conduct research into workplace health and safety hazards.

Coffey Environments is dedicated and thrives on being a client-focused organization. We understand the business dynamics within which our clients operate, and provide proactive and effective solutions that best meet their corporate objectives.

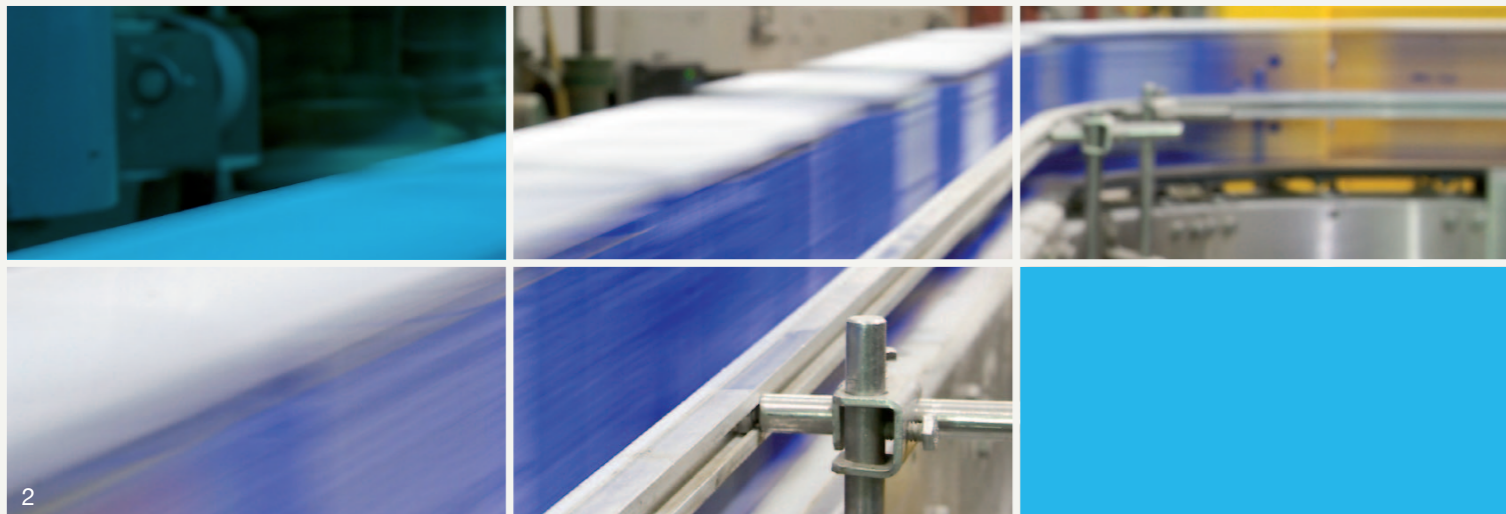

On an operational level, we recognize that each client is different. We aim to effect the most practical and cost-effective arrangement. Our overall objectives remain the same – these being to effectively manage time, cost and quality to best meet the needs and management style of our client.

Critical to our success is our ongoing commitment to developing and implementing innovative controls in the workplace, now seen by our clients as “industry standard practices.”

Coffey Environments has an extensive education program which includes formal education assistance, workshops, training programs and “technical topic” meetings, ensuring we remain leaders in our field and we extend this training to our clients.

SHARING OUR EXPERTISE AND HISTORY

- Clients have access to specialist expertise

OUR SERVICES

DEVELOPING SOLID RELATIONSHIPS

Coffey Environments focuses on developing solid and long-term client relationships. We work together with clients throughout our consultative process to ensure compliance with legislation, codes of practice, standards and guidelines. Our specialists are highly trained, experienced and knowledgeable. We endorse practices and procedures in excess of the minimum standards.

Partnering with our clients means we assist in identifying needs and help to manage the workplace health and safety process.

We assist our clients to contribute to the economic and social wellbeing of their workplace. We engage continuously with clients to help them solve problems innovatively in order to improve the quality of the environment in which they live and work.

We work together with our clients to ensure compliance with national and state legislation, and we advise on sustainable solutions by applying the latest concepts and knowledge in:

legislation – project prioritization – cost minimisation – communication and research

Adding value is seen as a very progressive trait of Coffey Environments and has led to a number of cases where we have saved a client both time and expense. As a solutions based company, we qualify what the client is trying to achieve and recommend various options on how these goals can be attained. Adding value is a large part of this process and due to the expertise and knowledge base of our specialists, we can save our clients money and enable projects to perform with increased efficiency.

SAFETY IN THE WORKPLACE

Everyone has a responsibility for improving workplace health and safety. Our specialists will work with you, assisting and guiding you on how to protect your people.

Coffey Environments will project-manage the health and safety process for you. People are the most important asset of any business. Therefore, we assist our clients to implement strategies, ensuring minimal disruption through lost time or injury. We work with our clients, guiding them on how to protect the health and safety of their people in living and working places.

Coffey Environments brings together experience and practical skills to provide advice and innovative solutions in all workplace health and safety areas.

Delivering tailored training programs

Our training solutions are tailored to your individual requirements and are designed to accommodate changing needs. Our facilitators deliver their experience in the training room using “live” industry case studies. Coffey Environments specialist training expertise is delivered successfully throughout many industries.

“The audit was conducted in a professional manner, criteria was clear and concise, I was adequately prepared for the audit with relevant materials based on the information sent out. Helpful suggestions were given by the auditor for continuous improvement. All in all, a good audit with the desired result. Thank you to you and your team for your assistance”.

"I would like to take this opportunity to thank you for all your assistance and expertise in getting WATM ready for the audit. The discussions that we had, have made me more aware of my responsibilities and the talks that you delivered with the service and sales personnel have opened their eyes to what is expected of them. Thanks for all your assistance".

John Wigham
General Manager
